| Neuropsychiatry..... | 29 |

Clinical Assessment

| Sessions: |
|------------------------------------------------------------------------------|
| Neurological History: General Approach and Common Pitfalls |
| Common Neurological Symptoms: Behavioural and Organic Mental Symptoms Part 1 |
| Common Neurological Symptoms: Behavioural and Organic Mental Symptoms Part 2 |
| Common Neurological Symptoms: Language Problems |
| Common Neurological Symptoms: Twitching or Muscle Fasciculations |
| An Approach to the Cognitively Impaired Adult |
| Examining Patients in Coma |
| Examination of the Limbs Part 1 |
| Examination of the Limbs Part 2 |
| Neurological Assessment: Movement Disorders |
| Neurological Assessment: Weakness and Sensory Loss 1 |
| Neurological Assessment: Weakness and Sensory Loss 2 |
| Neurological Examination: Cranial Nerves |
| Neurological Examination: Speech |
| Neurological Examination: Visual Function |
| Neurological Examination: Gait |
| Neuromuscular Assessment Part 1 |
| Neuromuscular Assessment Part 2 |
| The Mental Status Examination in Neurology |
| Principles of Neurological Investigation |
| Lumbar Puncture and Analysis of Cerebrospinal Fluid |

Neurological Issues in General Medicine and Surgery

| Sessions: |
|----------------------------------------------------------------------------|
| Common Neurological Symptoms: Headache |
| Common Neurological Symptoms: Seizures Part 1 |
| Common Neurological Symptoms: Seizures Part 2 |
| Common Neurological Symptoms: Post-traumatic |
| Common Neurological Symptoms: Swallowing Disorders |
| Common Neurological Symptoms: Movement Disorders |
| Common Neurological Symptoms: Delirium |
| Neurological Complications of Renal Disease |
| Neurological Complications of Liver Disease Part 1 |
| Neurological Complications of Liver Disease Part 2 |
| Neurological Complications of Endocrine Disease |
| Neurological Complications of Vitamin and Other Deficiency Diseases Part 1 |
| Neurological Complications of Vitamin and Other Deficiency Diseases Part 2 |
| Neurological Complications of Gastrointestinal Disease |
| Neurological Complications of Alcohol Misuse |
| Neurological Complications of Cardiac Disease |
| Neurological Complications of Haematological Disease |

Surgical Principles and Techniques

| Sessions: |
|--------------------------------------------------------------|
| The Modern Theatre Environment |
| Use of Standard Neurological Equipment |
| The Operating Microscope |
| Advanced Microsurgical Skills |
| Intraoperative Imaging Techniques |
| Image-guided Neurosurgery |
| Intraoperative Neurosurgical Electrophysiological Monitoring |
| Principles of Awake Craniotomy |
| Preparing the Operative Site Part 1 |
| Preparing the Operative Site Part 2 |
| Use of an Endoscope Part 1 |
| Use of an Endoscope Part 2 |
| Surgery in Children |
| Diagnosis and Management of Post-operative Haematoma |
| Prions and Neurosurgery |
| Performing Burr Holes |
| Performing a Convexity Craniotomy |
| Performing a Pterional Craniotomy |
| Performing a Subfrontal Craniotomy |
| Performing an Eye Brow Craniotomy Part 1 |
| Performing an Eye Brow Craniotomy Part 2 |
| Performing a Trans-sphenoidal Approach to the Sellar Part 1 |
| Performing a Trans-sphenoidal Approach to the Sellar Part 2 |
| Performing a Midline Supratentorial Craniotomy Part 1 |
| Performing a Midline Supratentorial Craniotomy Part 2 |
| Performing a Midline Posterior Fossa Craniotomy |
| Performing Posterior Fossa Decompression for Chiari |
| Performing a Retrosigmoid Craniotomy |
| The Translabyrinthine Approach to the Cerebellopontine Angle |
| Performing a Far Lateral Craniotomy |

| |
|-------------------------------------------------------------------------------------------|
| Application of a Halo or Traction to the Cervical Spine |
| Performing an Anterior Cervical Discectomy |
| Performing Posterior Cervical Decompression Procedures |
| Fusing C1 to C2 |
| Performing a Posterior Cervical Fusion Part 1 |
| Performing a Posterior Cervical Fusion Part 2 |
| Inserting Pedicle Screws |
| Minimally Invasive Surgical (MIS) Approaches to the Posterior Thoraco–lumbar Spine Part 1 |
| Minimally Invasive Surgical (MIS) Approaches to the Posterior Thoraco–lumbar Spine Part 2 |
| Vertebroplasty and Kyphoplasty |
| Performing a Lumbar Microdiscectomy |
| Principles of Surgical Scoliosis Correction Part 1 |
| Principles of Surgical Scoliosis Correction Part 2 |
| Performing a Lumbar Laminectomy |
| Inserting or Revising a Syringopleural Shunt |
| Closing a Neonatal Myelomeningocele |

Core Radiology

| Sessions: |
|--------------------------------------------------------|
| CT Based Imaging Techniques |
| Digital Subtraction Angiography |
| MR Based Imaging Techniques |
| Normal Spinal Radiological Neuroanatomy |
| Nuclear Medicine Based Imaging Techniques |
| Normal Vascular Radiological Neuroanatomy |
| Spinal Myelography |
| Ultrasound and Doppler Imaging |
| X-ray Development, Physics, Uses, Risks and Regulation |

Headache and Facial Pain

| Sessions: |
|----------------------------------------------------------------------|
| Head Pain: Epidemiology and General Considerations Part 1 |
| Head Pain: Epidemiology and General Considerations Part 2 |
| Differential Diagnosis of Headache |
| Overview of Chronic Headache Part 1 |
| Overview of Chronic Headache Part 2 |
| Headache in Children and Adolescents |
| Acute Management Prevention of Migraine |
| Diagnosis and Treatment of Migraine |
| Non-pharmacological Management of Migraine |
| Cluster Headache Acute and Prophylactic Treatments |
| Diagnosis and Treatment of Cranial Arteritis |
| Diagnosis and Treatment of Episodic Tension Type Headache |
| Idiopathic Intracranial Hypertension |
| Low CSF Pressure Headache |
| Diagnosis and Management of Trigeminal Autonomic Cephalalgias Part 1 |
| Diagnosis and Management of Trigeminal Autonomic Cephalalgias Part 2 |
| Diagnosis and Treatment of Non-dental Facial Pain Part 1 |
| Diagnosis and Treatment of Non-dental Facial Pain Part 2 |
| Diagnosis and Treatment of Trigeminal Neuralgia |
| Performing a MicroVascular Decompression for Trigeminal Neuralgia |
| Performing a Percutaneous Trigeminal Rhizotomy |
| Other Trigeminal Autonomic Cephalalgias |
| Neuropathic Pain |

Ischaemic Vascular Disease

| Sessions: |
|----------------------------------------------------------------------------------|
| The Impact of Stroke Upon Populations |
| Impact of Stroke and Transient Ischaemic Attack on Individuals |
| Providing Advice to a Person With Stroke and Their Carer |
| Overview of the NIHR Stroke Research Network Part 1 |
| Overview of the NIHR Stroke Research Network Part 2 |
| TIA Clinical Features and Referral Pathways and Investigations |
| Stroke Aetiology |
| Stroke Clinical Features Classification Part 1 |
| Stroke Clinical Features Classification Part 2 |
| A Structured Approach to the Investigation and Evaluation of the Cause of Stroke |
| Acute Stroke Treatment Part 1 |
| Acute Stroke Treatment Part 2 |
| The Secondary Prevention of Stroke |
| Surgical Management of Carotid Stenosis |
| Performing a Carotid Endarterectomy |
| Neuroradiological Interventions in Carotid or Vertebral Artery Stenosis |
| The Pathology of CNS Ischaemia and Infarction |
| Stroke Mimics |
| Stroke: Palliative Care |
| Ischaemic Stroke: Carotid and Vertebral Artery Dissection |
| Cardioembolic Stroke |
| Venous Stroke Part 1 |
| Venous Stroke Part 2 |
| Vasculitis |
| Basic Principles of CT Interpretation for Acute Stroke Part 1 |
| Basic Principles of CT Interpretation for Acute Stroke Part 2 |

Haemorrhagic Vascular Disease

| Sessions: |
|------------------------------------------------------------------------|
| Aetiology and Pathophysiology of Spontaneous Intracerebral Haemorrhage |
| Surgical Management of Spontaneous Intracerebral Haemorrhage |
| Surgery for Spontaneous Intracerebral Haemorrhage |
| Aetiology and Pathophysiology of Subarachnoid Haemorrhage |
| The Diagnosis and Management of Spontaneous Subarachnoid Haemorrhage |
| Assessment and Emergency Management of Subarachnoid Haemorrhage |
| Radiological Investigation of Subarachnoid Haemorrhage Part 1 |
| Radiological Investigation of Subarachnoid Haemorrhage Part 2 |
| Definitive Management of the Aneurysm: Radiology |
| Definitive Management of an Aneurysm: Surgery |
| Occlusion Challenges and Revascularisation Methods Part 1 |
| Occlusion Challenges and Revascularisation Methods Part 2 |
| Medical Management of Subarachnoid Haemorrhage |
| Vasospasm |
| Unruptured Intracranial Aneurysms |
| Familial Intracranial Aneurysms |
| Stereotactic Radiosurgery for Arteriovenous Malformations |
| Surgery for Arteriovenous Malformations Part 1 |
| Surgery for Arteriovenous Malformations Part 2 |
| Embolisation for Arteriovenous Malformations |
| Cranial Dural Arteriovenous Fistulae |
| Paediatric Vascular Neurosurgery |
| Infantile Intraventricular Haemorrhage |
| Management of Vein of Galen Malformations |
| Principles in Managing Cavernomas |
| Spinal Vascular Malformations |

Head Injury

| Sessions: |
|---------------------------------------------------------------------------------|
| Epidemiology of Head Injury |
| Head Injuries in Children |
| Inflicted Head Injury in Childhood: Non-accidental |
| Neuropathology of Head Injury Part 1 |
| Neuropathology of Head Injury Part 2 |
| Early Phase Care of the Moderate and Severely Head Injured Patient Part 1 |
| Early Phase Care of the Moderate and Severely Head Injured Patient Part 2 |
| Management of the Head Injured Patient Part 1 |
| Management of the Head Injured Patient Part 2 |
| Imaging in Head Injury |
| Neurointensive Care ICU Management of TBI |
| Cerebral Protection Strategies in Head Injury |
| Nutrition and Fluid Balance in the Head Injured Patient |
| Overview of the Surgical Management of Head Injuries |
| Evacuation of a Chronic Subdural Haematoma |
| Management of Depressed Skull Fractures |
| Insertion of an Intracranial Pressure Monitor |
| Performing a Trauma Craniotomy |
| Performing a Decompressive Craniectomy for Traumatic Brain Injury Part 1 |
| Performing a Decompressive Craniectomy for Traumatic Brain Injury Part 2 |
| Performing a Cranioplasty |
| Complications of Head Injury: Cranial Nerve and Vascular Complications Part 1 |
| Complications of Head Injury: Cranial Nerve and Vascular Complications Part 2 |
| Complications of Head Injury: Hydrocephalus, Seizures and Pituitary Dysfunction |
| Complications of Head Injury: CSF Leak and Intracranial infection |
| Neuropsychology and Head Injury Part 1 |
| Neuropsychology and Head Injury Part 2 |
| Outcome After Head Injury Part 1 |
| Outcome After Head Injury Part 2 |

Transient Loss of Consciousness and Epilepsy

| Sessions: |
|----------------------------------------------------------|
| Acute Symptomatic Seizures |
| Assessment and Treatment of Refractory Epilepsy |
| Assessment of Patients Presenting with Blackouts |
| Brain Imaging in Seizures and Epilepsy Part 1 |
| Brain Imaging in Seizures and Epilepsy Part 2 |
| Cardiac Syncope |
| Causes of Epilepsy: Symptomatic |
| Choosing Antiepileptic Drugs For Focal Epilepsy |
| Choosing Antiepileptic Drugs For Generalised Epilepsy |
| Convulsive Status Epilepticus |
| Diagnosis of Frontal Lobe Epilepsy |
| Diagnosis of Temporal Lobe Epilepsy |
| Differential Diagnosis of Blackouts and Epilepsy |
| Epilepsy and Learning Disability |
| Epilepsy in Adolescence |
| Epileptic Seizures and Syndromes in Neonates and Infants |
| Idiopathic Epilepsy Part 1 |
| Idiopathic Epilepsy Part 2 |
| Interactions of Antiepileptic Drugs Part 1 |
| Interactions of Antiepileptic Drugs Part 2 |
| Management of Epilepsy in Remission |
| Management of Epilepsy in the Elderly |
| Management of Women with Epilepsy: Reproductive Issues |
| Memory and Epilepsy |
| Monitoring Drug Therapy |
| Non-convulsive Status Epilepticus |
| Occipital and Parietal Lobe Epilepsies |
| Other Childhood Epilepsy Syndromes |
| Palliative Surgical Treatments for Epilepsy |
| Pregnancy and Epilepsy Part 1 |
| Pregnancy and Epilepsy Part 2 |
| Role of EEG in Assessment for Epilepsy Surgery |
| Role of EEG in the Diagnosis of Epilepsy |
| Social Consequences of Epilepsy |

| |
|----------------------------------------------------------|
| Starting Epilepsy Treatment |
| Surgical Treatment of Epilepsy Workup and Outcome Part 1 |
| Surgical Treatment of Epilepsy Workup and Outcome Part 2 |
| Temporal Lobe Surgery for Epilepsy Part 1 |
| Temporal Lobe Surgery for Epilepsy Part 2 |
| The Causes of Epilepsy: Idiopathic Epilepsy |
| The Classification of Seizures and the Epilepsies |
| The Diagnosis of Non-epileptic Seizures |
| The Diagnosis of Vasovagal Syncope |
| The Management of Non Epileptic Seizures |
| Use of Antiepileptic Drugs in Refractory Epilepsy |

Neurological Infections

| Sessions: |
|-------------------------------------------------------------|
| Introduction to Neurological Infectious Diseases |
| Acute Pneumococcal and Meningococcal Meningitis |
| Diagnosing and Managing Patients with Tubercular Meningitis |
| Listeria Monocytogenes Meningitis |
| Cryptococcal Meningitis |
| Aseptic Meningitis |
| Encephalitis |
| Nervous System Manifestations of Varicella Zoster Infection |
| Herpes Simplex Virus Encephalitis |
| Autoimmune Encephalitis |
| Congenital Cytomegalovirus |
| HIV Encephalopathy |
| HIV Neuropathy |
| The Neurology of HTLV-1 Infection |
| Toxoplasmosis |
| Cerebral Malaria |
| Syphilis |
| Botulism |
| Lyme Borreliosis |
| Tetanus |
| Human Prion Diseases |
| The Diagnosis and Management of Brain Abscesses |
| Imaging Features of Bacterial Brain Infection |
| Discitis Vertebral Osteomyelitis and Epidural Abscess |

Neuro-inflammatory Diseases

| Sessions: |
|-----------------------------------------------------------------------------|
| Acute Disseminated Encephalomyelitis |
| Autoimmune Encephalopathies |
| DMTs in Multiple Sclerosis: Interferons and Glatiramer Acetate |
| Multiple Sclerosis: Assessment and Diagnosis |
| Multiple Sclerosis: Basic Epidemiology and Pathophysiology |
| Multiple Sclerosis: Management of Relapses Part 1 |
| Multiple Sclerosis: Management of Relapses Part 2 |
| Multiple Sclerosis: Other Disease Modifying Treatments |
| Neuro Behcets |
| Neurological Manifestations of Lupus and the Antiphospholipid Syndrome |
| Neuromyelitis Optica (Devic's Disease) |
| Neuropsychiatric Aspects of Multiple Sclerosis and White Matter Disorders |
| Neurosarcoidosis |
| Rheumatoid Sjogrens and Other Autoimmune Disorders Affecting the CNS Part 1 |
| Rheumatoid Sjogrens and Other Autoimmune Disorders Affecting the CNS Part 2 |
| Symptomatic Therapies in Multiple Sclerosis Part 1 |
| Symptomatic Therapies in Multiple Sclerosis Part 2 |
| Transverse Myelitis: Causes Assessment and Management |

Neurodegeneration

| Sessions: |
|--------------------------------------------------------|
| Investigation of Dementia |
| Alzheimer's Disease: Current and Future Treatments |
| Alzheimer's Disease: Genetics and Current Hypotheses |
| Caring For Patients With Dementia |
| Clinical Aspects of Alzheimers Disease |
| Degenerative Dementias: Current Concepts and Overview |
| Dementia With Lewy Bodies: Basic Science and Pathology |
| Dementia With Lewy Bodies: Clinical Aspects |
| Frontotemporal Lobar Degeneration: Basic Science |
| Frontotemporal Lobar Degeneration: Clinical Syndromes |
| Huntington's Disease |
| Prion Disease: Epidemiology and Clinical Aspects |
| Prion Disease: Pathogenesis and Genetics |
| Vascular Cognitive Impairment: Current Concepts Part 1 |
| Vascular Cognitive Impairment: Current Concepts Part 2 |
| Vascular Cognitive Impairment: Rare and Unusual Causes |
| Young Onset and 'treatable' Dementias |

Movement Disorders

| Sessions: |
|-----------------------------------------------------------|
| Acquired Cerebellar and Spinocerebellar Ataxias |
| Classification and Epidemiology of Movement Disorders |
| Clinical Aspects of Progressive Supranuclear Palsy |
| Corticobasal Degeneration and the Corticobasal Syndrome |
| Diagnosis and Treatment of Essential Tremor Part 1 |
| Diagnosis and Treatment of Essential Tremor Part 2 |
| Drug-induced Movement Disorders |
| Dystonia: Classification and Genetics |
| Dystonias: Secondary Causes and Investigations |
| Features and Treatment of Parkinsonian Tremor |
| Features Causes and Treatment of Cerebellar Tremor Ataxia |
| Hereditary Cerebellar Ataxia |
| Hereditary Spastic Paraplegia |
| Multiple System Atrophy |
| Myoclonus |
| Parkinson's Disease Management of Motor Symptoms |
| Parkinson's Disease: Cognitive and Psychiatric Features |
| Parkinson's Disease: Surgical Treatment |
| Parkinsons Disease: Definition Pathogenesis and Pathology |
| Rare Causes of Tremor |
| Restless Legs Syndrome |
| Stiff Person Syndrome |
| The Genetics of Parkinsonism Part 1 |
| The Genetics of Parkinsonism Part 2 |
| The Primary Focal Dystonias |
| Tourettes Syndrome and Other Tic Disorders |
| Tremor Classification and Management |

Neuromuscular Diseases

| Sessions: |
|-------------------------------------------------------------|
| Acquired Muscle Disease |
| Acquired Peripheral Neuropathies |
| Clinical Introduction to Neuromuscular Diseases |
| Clinical Neurophysiology of Muscle and NMJ Disorders Part 1 |
| Clinical Neurophysiology of Muscle and NMJ Disorders Part 2 |
| Genetic Muscle Disease |
| Hereditary Neuropathies |
| Neuromuscular Junction Disorders Part 1 |
| Neuromuscular Junction Disorders Part 2 |
| The Diagnostic Pathology of Neuromuscular Disease Part 1 |
| The Diagnostic Pathology of Neuromuscular Disease Part 2 |

Coma and Sleep

| Sessions: |
|----------------------------------------------------------|
| The Assessment of Patients in Coma Part 1 |
| The Assessment of Patients in Coma Part 2 |
| Causes and Clinical Assessment of Coma |
| General Medical Care on Neurological Intensive Care Unit |
| EEG in Sleep Disorders and the MSLT |
| EEG in the Diagnosis of Coma |
| Excessive Daytime Sleepiness |
| Hypoxic–ischaemic Brain Injury |
| Narcolepsy |
| Neurological Complications of Critical Illness Part 1 |
| Neurological Complications of Critical Illness Part 2 |
| Normal Sleep Architecture |
| Raised ICP Herniation and Management |

Neuro-ophthalmology

| Sessions: |
|---------------------------------------------------------|
| Assessment of Double Vision |
| Assessment of Ptosis |
| Assessment of Visual Failure Part 1 |
| Assessment of Visual Failure Part 2 |
| Central Disorders of Saccadic and Pursuit Eye Movements |
| Chiasmal Disorders |
| Heredo–familial Optic Neuropathies |
| Ischaemic Optic Neuropathies |
| Ocular Myopathies |
| Oculomotor Disorders |
| Optic Nerve Tumours |
| Optic Neuritis |
| Orbital and Cavernous Sinus Disorders |
| Papilloedema and Related Optic Disc Disorders |
| Pupil Abnormalities |
| Retinal Disorders in Neurological Disease |
| Retrochiasmal Disorders |
| Toxic Nutritional Optic Neuropathy |

Neuro-otology

| Sessions: |
|-------------------------------------------------------------------|
| Acute Vertigo and Dizziness Part 1 |
| Acute Vertigo and Dizziness Part 2 |
| Anatomy and Pathophysiology of Dizziness and Vertigo |
| Benign Paroxysmal Positional Vertigo |
| Central Causes of Vestibular Disturbance |
| Central Disorders of Hearing |
| Diagnostic Approach of Dizziness and Vertigo Part 1 |
| Diagnostic Approach of Dizziness and Vertigo Part 2 |
| Falls in the Elderly: Assessment and Management |
| Hearing and Balance Tests |
| Meniere's Disease and Migraine Associated Dizziness |
| Peripheral Causes Vestibular Disorders Sensory Mismatch Syndromes |
| Principles of Vestibular Rehabilitation |

Diseases of the Autonomic Nervous System

| Sessions: |
|------------------------------------------------------------------------|
| Neurological Control Through the Autonomic Nervous System |
| Neural Control of the Bladder |
| Neurological Control of Sexual Function |
| Autonomic Failure Primary and Secondary |
| Investigation and Management of Neurogenic Bladder Dysfunction |
| Investigation and Management of Neurogenic Sexual Dysfunction Part 1 |
| Investigation and Management of Neurogenic Sexual Dysfunction Part 2 |
| Neurogenic Bowel Dysfunction |
| Parkinson Disease: Parkinsonism, Bladder, Bowel and Sexual Dysfunction |
| Pelvic Organ Dysfunction Following Cauda Equina Damage |
| Peripheral Nerve Disorders Bladder, Bowel and Sexual Dysfunction |

Spinal Trauma

| Sessions: |
|-----------------------------------------------------------------------------------------|
| Anatomy of the spinal column and spinal stability |
| Principles of Surgical Treatment of Spinal Injuries |
| Spinal Injuries in Children |
| Initial Management of Spinal Injury and Spinal Shock |
| Pre-operative Assessment and Anaesthetic Management of Patients with Spinal Cord Injury |
| Atlanto-axial Cervical Spine Fractures |
| Subaxial Cervical Spine Fractures |
| Fractures of the Spine |

Elective Spinal Disease

| Sessions: |
|--------------------------------------------------------------|
| Atlanto–axial Subluxation |
| Diagnosis and Treatment of Back Pain |
| Management of Lumbar Disc Prolapse and Cauda Equina Syndrome |
| Managing Cervical Degenerative Disease Part 1 |
| Managing Cervical Degenerative Disease Part 2 |
| Spinal Dysraphism Part 1 |
| Spinal Dysraphism Part 2 |
| Spondylolisthesis |
| Adolescent Idiopathic Scoliosis |
| Neuromuscular Scoliosis |
| Management of Pectus Excavatum |
| Kyphosis |
| Inflammatory Spondyloarthritis |
| Coccydynia |
| Anterior Approach to the Lower Lumbar Spine |
| Surgical Treatment of Chronic Low Back Pain |
| Spondylolysis |
| Rheumatoid Arthritis in the Spine |
| Primary Bone Tumours of the Spine |

Tumours and Cysts

| Sessions: |
|----------------------------------------------------------------------|
| Diagnostic Imaging in Brain Tumours Part 1 |
| Diagnostic Imaging in Brain Tumours Part 2 |
| Histopathology of Non-astrocytic Gliomas |
| Imaging Features of Pineal Region Tumours |
| Intracranial Metastases Imaging and Differential Diagnoses |
| Intraoperative Chemotherapy and Radiotherapy |
| Aetiology and Pathogenesis of PNET of the CNS |
| Aetiology and Pathophysiology of CNS Lymphomas |
| Aetiology and Pathophysiology of Intracranial Meningiomas |
| Aetiology and Pathophysiology of Pituitary Adenomas |
| Anaesthetic Management of Supratentorial Tumours |
| Assessment of the Patient With a Brain Tumour 1 |
| Assessment of the Patient With a Brain Tumour 2 |
| Characteristic Appearances and Differential Diagnosis of Meningiomas |
| Clinical Presentation of Patients With Brain Tumours |
| CNS Tumours: Basic Histology WHO Grading System Part 1 |
| CNS Tumours: Basic Histology WHO Grading System Part 2 |
| Emerging Treatments for Gliomas Part 1 |
| Emerging Treatments for Gliomas Part 2 |
| Histopathology of Astrocytic Neoplasms Part 1 |
| Histopathology of Astrocytic Neoplasms Part 2 |
| Histopathology of CNS Lymphomas Part 1 |
| Histopathology of CNS Lymphomas Part 2 |
| Histopathology of Meningiomas |
| Histopathology of Peripheral Nerve Sheath Tumours and Schwannomas |
| Histopathology of Pineal Region Tumours Part 1 |
| Histopathology of Pineal Region Tumours Part 2 |
| Histopathology of PNET of the CNS |
| How to do an Image Guided Biopsy Part 1 |
| How to do an Image Guided Biopsy Part 2 |
| How to do an Image Guided Craniotomy |
| How to do an Interhemispheric Approach for a Colloid Cyst |
| Image Guided Neurosurgery |

| |
|--------------------------------------------------------------------------|
| Imaging Features of Central Nervous System Lymphomas |
| Imaging Features of Medulloblastoma and Other PNETs |
| Intramedullary Spinal Cord Tumours |
| Intraoperative Surgical Adjuncts Part 1 |
| Intraoperative Surgical Adjuncts Part 2 |
| Long-term Complications of Radiotherapy and Chemotherapy for CNS Disease |
| Malignant Meningitis |
| Malignant Spinal Cord Compression |
| Malignant Spinal Cord Compression: Cases |
| Management of Cerebellopontine Angle Tumours |
| Management of Craniopharyngiomas |
| Management of Meningiomas Part 1 |
| Management of Meningiomas Part 2 |
| Management of Primary CNS Lymphomas Part 1 |
| Management of Primary CNS Lymphomas Part 2 |
| Management of Primitive Neuroectodermal Tumours |
| Management Principles for Metastases |
| Medical Management of Pituitary Adenomas |
| Minimal Invasive Neurosurgery |
| Molecular and Cell Biology in CNS Tumours Part 1 |
| Molecular and Cell Biology in CNS Tumours Part 2 |
| Non-surgical Management of Low Grade Gliomas |
| Palliative Care and End of Life in Brain Tumour Patients Part 1 |
| Palliative Care and End of Life in Brain Tumour Patients Part 2 |
| Paraneoplastic Neurological Disorders of the CNS and PNS |
| Pathology and Management of Dermoids and Epidermoids |
| Pathology of Pilocytic Astrocytomas |
| Pathophysiology and Management of Arachnoid Cysts |
| Pathophysiology and Management of Colloid Cysts |
| Performing a Craniotomy Convexity Meningioma |
| Peripheral Nerve Sheath Tumours |
| Pituitary Apoplexy |
| Principles in Managing Intradural Extramedullary Spinal Tumours |
| Principles of Brain Tumour Management in Children |
| Principles of Chemotherapy |

| |
|----------------------------------------------------------------|
| Principles of Radiotherapy and Radiosurgery |
| Radiology of CNS Cysts |
| Radiology of Dermoids and Epidermoids |
| Radiology of Spinal Intradural Extramedullary Tumours |
| Referral and Management Guidelines of Tumour Patients |
| Skull Lesions Part 1 |
| Skull Lesions Part 2 |
| Special Considerations for Skull Base Tumours Part 1 |
| Special Considerations for Skull Base Tumours Part 2 |
| Stereotactic Radiosurgery for Acoustic Schwannoma |
| Surgical Approaches to Tumours of the Ventricle |
| Surgical Management of High Grade Gliomas Part 1 |
| Surgical Management of High Grade Gliomas Part 2 |
| Surgical Management of Low Grade Gliomas |
| Surgical Management of Pituitary Adenomas |
| Surgical Treatment of Spinal Intradural Extramedullary Tumours |
| The Histopathology of Choroid Plexus Neoplasms |
| The Histopathology of Neuronal and Glioneuronal Tumours Part 1 |
| The Histopathology of Neuronal and Glioneuronal Tumours Part 2 |
| The Treatment of High Grade Gliomas Part 1 |
| The Treatment of High Grade Gliomas Part 2 |
| Tumours of the Brainstem |
| Tumours of the Central Nervous System: Craniopharyngioma |
| Imaging Features of Intramedullary Spinal Cord Tumours |

Hydrocephalus and Cerebrospinal Fluid Pathologies

| Sessions: |
|---------------------------------------------------------------------|
| Aetiology and Pathophysiology of Hydrocephalus |
| Management Principles of Hydrocephalus |
| Inserting a Ventricular Access Device or External Ventricular Drain |
| Performing an Endoscopic Third Ventriculostomy |
| Normal Pressure Hydrocephalus |
| Performing a Subtemporal Decompression |
| Disorders of the Foramen Magnum Part 1 |
| Disorders of the Foramen Magnum Part 2 |
| Management of Syringomyelia |
| Cranial Cerebrospinal Fluid Fistula |
| Investigation and Treatment of Spinal Cerebrospinal Fluid Leaks |
| Spinal Arachnoiditis |

Neuro-rehabilitation and Spinal Injury Rehabilitation

| Sessions: |
|--------------------------------------------------------------------|
| History Taking and Examination in Complex Neurological Disability |
| Clinical Gait Analysis in Rehabilitation Medicine Part 1 |
| Clinical Gait Analysis in Rehabilitation Medicine Part 2 |
| Aetiology and Management of Pressure Sores |
| Autonomic Dysfunction |
| Bladder Problems in Multiple Sclerosis |
| Bowel Problems in Multiple Sclerosis |
| Diagnosis and Management of Cognitive Functioning After Stroke |
| Early Supported Discharge for Stroke |
| Family Relationships and Supporting Carers |
| Fatigue in Multiple Sclerosis |
| Locked-in Syndrome |
| Low Awareness States |
| Maintaining Activities Daily Life |
| Management of Spasticity in Post Stroke Syndrome |
| Management of Spasticity and Associated Features Part 1 |
| Management of Spasticity and Associated Features Part 2 |
| Management of Spasticity in Children Part 1 |
| Management of Spasticity in Children Part 2 |
| Managing Late Deterioration in Neurological Disability |
| Orthotics and the Avoidance and Management of Contractures |
| Pain After Stroke |
| Pain in Multiple Sclerosis |
| Physical Therapies After Stroke Part 1 |
| Physical Therapies After Stroke Part 2 |
| Rehabilitation After Stroke |
| Rehabilitation in Nursing Homes |
| Role of Occupational Therapy in Neurorehabilitation Part 1 |
| Role of Occupational Therapy in Neurorehabilitation Part 2 |
| Speech and Language Problems and Their Management |
| The Assessment and Management of Swallowing Disorders Part 1 |
| The Assessment and Management of Swallowing Disorders Part 2 |
| The Management of Posture and Mobility |
| Vocational Rehabilitation Following Neurological Trauma or Illness |

Neuropsychiatry

| Sessions: |
|---------------------------------------------------------------------------------|
| Epilepsy and Psychosis |
| ASD and Aspergers Syndrome |
| Bulimia Nervosa Lessons from a Patient's Perspective |
| Forensic Neuropsychiatry |
| Functional Neurological Symptoms: Assessment |
| Functional Neurological Symptoms: Treatment |
| Introduction Mental Health Act |
| Medical Complications and Re-feeding for Anorexia Nervosa |
| Memory Disorders |
| Neuropsychiatric Syndromes in Dementia |
| Neuropsychiatry of Depression in Epilepsy |
| Neuropsychiatry of Epilepsy |
| Performing a Neuropsychiatric Examination |
| Principles of Developmental Neuropsychiatry in Children and Young People Part 1 |
| Principles of Developmental Neuropsychiatry in Children and Young People Part 2 |
| Psychogenic Non-epileptic Seizures PNES |
| Psychopharmacology of Anxiety Disorders |
| The Diagnosis and Treatment of ADHD in Adults |
| The Forensic Neuropsychiatry of Neurodegenerative Disorders |
